WHO WE ARE • • •

First2 Network is an expanding group of over 1000 people and 30 organizations working to increase the number of college graduates in science, technology, engineering, and math (STEM) to strengthen our communities and drive an innovation economy in West Virginia and beyond. First2 focuses on *rural, first-generation, low-income, and other underrepresented STEM students*, making sure all our students can succeed.

The purpose of our Industry Advisory Board (IAB) is to

- bridge the gap between career development and the workforce needs of industry,
- support current college students to persist in STEM programs,
- identify professional opportunities to stay in the region, and
- mentor students to be academically and professionally successful in their field.

INDUSTRY ADVISORY BOARD MEMBERS HAVE THE REWARDING OPPORTUNITY TO:
